

Inside a PC,
up to **600***
pcs

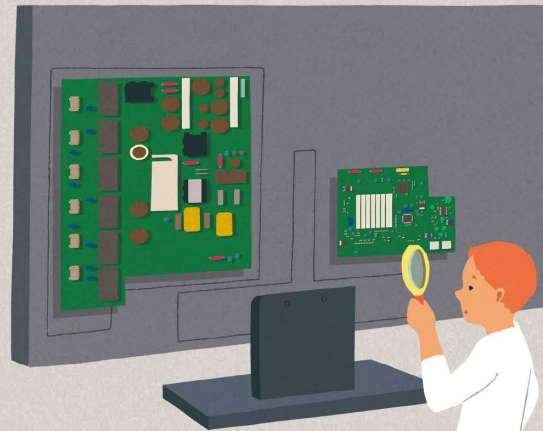

Inside a smart phone,
up to **1,000***
pcs

So close by...
Murata is everywhere!

Inside an electric vehicle,
up to **5,000***
pcs

Inside a TV,
up to **500***
pcs

There are an incredible
number of Murata parts
that support our
everyday lives.

Actually, a majority of things that move with electricity use “Murata products”
For instance, there are up to 1,000 pcs in just one smart phone.
There are 500 in a TV and 600 in a PC.
For electric vehicles, there are 5,000 pcs.
While each one is very small, they are making huge differences in our everyday lives.
And the smaller the part, the bigger the contribution to conservation of resources and energy.
Murata supports everyday lives and does so sustainably.

Murata is
part of your life
