

Wearable Devices:
Beyond 5G towards 6G!

Sensing Technologies:
To become the eyes,
the hands, and to save lives.

Working diligently
to build a future that
will surprise you.

Development starts by
imagining a truly exciting future
- one where technology has no limits.
That's what we believe.
We take on that challenge one step
at a time, manufacturing parts
and providing solutions to social issues.
At Murata, we're determined to
realize the future we dream about.

In the very
near future
- cars that can fly.

**Murata is
everywhere!**

Murata is committed
to break-through
technologies.
